

Distec is now called FORTEC Integrated.

Germering, April 2, 2024 – Distec GmbH, Vertrieb von elektronischen Bauelementen, part of the FORTEC Group since 2015, has changed its name and is now operating as FORTEC Integrated GmbH. In July 2023, uniform corporate brands were established for the FORTEC Group subsidiaries to offer the comprehensive product range of display technology, embedded systems, and power supplies under one brand. The renaming now marks another step in the grow-together process of the FORTEC Group into a global partner for unlimited technology solutions.

Even with a new name, FORTEC Integrated continues to offer high-quality industrial TFT display solutions, embedded products, and systems. The company provides optimal solutions for the most demanding customers in the fields of medicine, industry, transportation, security technology, and digital signage.

About FORTEC Integrated

FORTEC Integrated (formerly Distec) is a FORTEC Group company, a globally active and recognized specialist in the field of display technology and embedded computing for projects from all industries. The company, headquartered in Germering near Munich and with a factory in Hörselberg-Hainich near Eisenach, develops, manufactures, and markets innovative solutions and a wide range of components, TFT displays, embedded boards, systems, and services. The innovative solutions from assemblies and kits to OEM end products are based on hardware and software developed by FORTEC Integrated in its own design center in Germering. The range of services includes customer-specific developments and adaptations, product refinements such as VacuBond® optical bonding and the assembly of monitor systems, as well as the manufacture of finished products. A wide range of touch screens and the internal touch competence center enable individual touch solutions even for difficult environmental conditions. In addition, FORTEC Integrated can draw on the goods, services, and know-how of the extensive FORTEC high-tech company network. Further information can be found at <https://www.fortec-integrated.de/en/>
